Local info on XM and other Satellite radio is a must, and a RIGHT. We pay for the service and ask them for local info such as traffic and weather, this info has been invaluable especially on the the last trip we took to and from Canada this Memorial weekend letting use know about any delays on our way home.(like the 90+ Min. at the bridge) where other stations (local) can not reach with there week signal and or limited reporting if you can find one little alone stand the music coming from it. THE CHOICE IS OURS, NOT YOURS. LEAVE THEM ALONE PLEASE. Rarely do we listen to local stations, since I pay for it, it is my choice to listen to it local or not.
Thnak you
Jeff Siler
